

# PwC's Next Level HR

Different  
Delivered.

## Turn your HR tool into a business tool

Organizations that have transformed their company with an HR cloud solution get a powerful, digital platform that can move as quickly as the business. However, deployment is just the beginning with a HR tool investment.

PwC's Next Level HR solution aims to increase your company's investment to extract more value and increase engagement to demonstrate the ROI, not only as a HR tool but also as a business tool.

### Solution benefits

#### Data-driven business insights

Oracle HR tool will be fine-tuned to provide meaningful insights and dashboards for clients to make smarter workforce decisions.

#### Drive productivity

Reduce manual, and redundant transactions so the workforce can focus on strategic business priorities

### Technology leveraged

#### Enterprise insights

Cross system analytics solution that helps assess risks within their enterprise system data

#### PwC Amplifier

PwC proprietary tool that drives user adoption by gamifying effective use of Oracle HCM Cloud.

#### AdobeXD/ PwC workbench

Tools that use top-notch, aesthetically-pleasing visualizations

#### Cost savings

Review of the current footprint to identify cost loopholes to realize potential cost savings

#### Improve engagement

Innovative campaigns on Oracle tool's continued innovation and functionality enhancements to drive up user adoption.
